Cross-section creation in QGIS and Inkscape

vendredi 11 février 2022 10:55 (50 minutes)

How to practically create a geologic cross-section starting from QGIS plugins, to extract topographic profiles, geologic contacts, dip and strike. How to finalize the interpreted cross-section in the open source Inkscape software.

Orateurs: Dr PENASA, Luca (INAF-OAPD); POZZOBON, Riccardo (INAF-OAPD)

Classification de Session: GIS and mapping basics

Classification de thématique: Practical Demonstration
