

IHDEA Cloud Meeting

lundi 10 juillet 2023 - jeudi 13 juillet 2023

Observatoire de Paris

Programme Scientifique

Plenary

Core heliophysics science platforms and cloud infrastructure projects will be presented during the plenary session.

Preliminary list of projects: ESA DataLabs, Helio-Cloud, ESCAPE. Views from IVOA will also be presented.

Unconference

Four informal "unconference" sessions are planned. Open discussion topics will be prepared in advance with the workshop attendees for the first unconference sessions. The topics of the later unconference sessions will be decided during the workshop.

Preliminary list of topics (to be Updated):

- Data registration and discovery

- Data access methods

- Shipping code

- Infrastructure sharing

- Open Data/Open Science

- Workflow management

- Webservices registration, discovery and access
