OUR COMPANY

Proven excellence in interconnect solutions

- Since **1947**, Amphenol Socapex has prescribed, designed and manufactured reliable and innovative interconnection solutions for harsh environments, specializing in standard and customized electrical and fiber optic connectors, contacts, accessories and cabling solutions.
- Located in the **Mont Blanc region** of France and Pune in India, Amphenol Socapex serve customers in over 100 countries around the world.
- Amphenol Socapex is part of the leading supplier of interconnect systems **Amphenol**.

1100+
employees

109 M€
Net Sales 2022
71% Export - 29% France

Thyez, **France**
Pune, **India**

Our expertise has no boundaries

Integrated Production in France & India

- 24 000 m² manufacturing capacity on 2 sites
- Design and manufacturing centers in France and India
- State-of-the-art manufacturing technology

Our markets

Military

**Commercial
Aerospace**

Space

Industry

TECHNOLOGIES & INNOVATION

Engineering Laboratory

Product testing and qualification expertise in many fields:

- Environmental, mechanical, electrical, chemical, climatic skills
- RF and fiber optics expertise

High-Speed Expertise

Strong expertise in high-speed signals

- 3D EM simulation software & EM models
- Time Domain and frequency domain

Materials Expertise

Focus on materials expertise and manufacturing techniques to produce faster, smaller and stronger products

- Advanced technology research and development: polymers, metals, platings, resins ...
- Cutting edge characterizations of interconnects: Radio Frequency, partial discharges ...
- 3D CAD mechanical software, simulation & analysis

Eco-responsibility

Sustainable environment approach, with pro-active management of regulations (REACH / RoHS / Conflict minerals...)

- New materials development, plating, and suitable processes
- Recycling and rational resources consumption

Our workshops

Our workshops located in France & India provide consistent quality adapted to your volume requirements.

Automation & Tooling : Tools for our different activities : molding, machining, assembly

Molding : Solid expertise in thermoplastic elastomer and thermoset molding

Machining : Manufacturing of cylindrical shells and rectangular shells

Screw Machining : Manufacturing of electrical contacts

Plating : Plating with cadmium, nickel, electroless nickel, silver, black zinc nickel, gold

Assembly : Connector and harness assembly (electrical & optical)

Our certifications

Product certifications : MIL-DTL38999, EN3645, EN3155, VG (VG95328, VG95319, VG96944, VG95218, VG96949)

CUSTOMER EXPERIENCE

► We have a strong reputation for helping customers solve their toughest challenges. This approach of serving your needs is ingrained in our company – from our sales team to our product development engineers.

A partner you can trust

Buy our solutions

You can access our solutions through our global network of sales offices or through our distributors.

Field Sales Team :

- 10 in France
- 15 in Europe
- 100+ in North America and rest of the world.
- 5 Business Development Managers supporting local sales force Europe, North America and the rest of the world

- Technical Advisement & Multilingual Customer Service :**
20 people

Worldwide Distribution Network :

Our range of circular connectors, contacts, fiber optic connectors, PCB connectors and accessories are available thru our extensive distribution network.

It includes qualified distributors (QPL approved) for assembling MIL-DTL-38999 & derivatives and PT/451 (VG95328) connectors.

NEW

OUR HISTORY

1947

- Socapex creation in Suresnes, France
- 1st radio connector

1956-57

- Manufacturing unit in Cluses (74), France
- Thomson-CSF becomes primary shareholder

Early 1960's

- 1st board level connectors: HE8
- 1st "licence Bendix" manufactured connectors
- SL Series

1973

- New factory in Thyez (74) France with 250 people, 13 000m²

1975

- Production of 38999 connectors

1986

Amphenol
Socapex

- Amphenol becomes primary shareholder

1995-96

- Expanded Beam connector CTOS launch
- Headquarters transferred to Thyez

2004

- RJ Field launch, "Award Electronica"

2005

- New factory in Pune, India

2010's

- LuxBeam™ and HDAS launch

2014-2017

- New workshops : Cable Assembly & Contact Manufacturing workshop

2019

- Increased manufacturing capacity with 2nd building in Pune, India

2022

- Harness in the box solution launch

Today & tomorrow

- New technologies : Investment in automation & technical expertise

- Amphenol SOCAPEX joins the "Convention des Entreprises pour le Climat".
- Our goal: to accelerate our transition to a more sustainable operation.

QUICK SELECTION GUIDE

Thanks to a high level of expertise on MIL-DTL-38999 SERIES I, II & III & EN3645 connectors, Amphenol Socapex is able to offer qualified connectors along with proprietary ones, and derivatives ranges to fit any customers needs.

STANDARD RANGE MIL-DTL-38999

QUICK REFERENCE GUIDE

MIL-DTL-38999 Series III, EN3645, TV & CTV - STANDARD RANGE

Metal shells - TV Series (MIL-DTL-38999/20/24/26 - EN3645)

- Large choice of materials and platings.
- Complete range of contact arrangements.
- Suitable for C5ISR, Navy, Armored vehicles, Military aircraft and Missiles.

Composite shells - CTV Series (MIL-DTL-38999/20/24/26 - EN3645)

- Up to 70% weight saving compare to a Stainless Steel version.
- Complete range of composite connectors and backshells.
- Suitable for Commercial and Military aircrafts.

Hermetic receptacles (MIL-DTL-38999/21/23/25)

- Air leakage limited to $1.10^{-7} \text{ cm}^3/\text{s}$.
- Glass sealed insert technology.
- TVSY & TVSYN, D38999/21/23/25.

Lanyard release plug (MIL-DTL-38999/29/30/31)

- Instant disengagement.
- Quick disconnect with an axial pull of lanyard or normal rotation of the coupling ring.
- D38999/29/30/31.

MIL-DTL-38999 Series III, EN3645, TV & CTV - EXTENDED RANGE

Plugs and receptacles with integrated backshells

- Suitable for MIL-DTL-38999 Series III plugs and receptacles.
- All-in-one connector.
- 50% length and weight saving on average compare to a TV connector with TV35 backshell.

Square flange receptacles equipped with clinch nuts

- Derived from MIL-DTL-38999 Series III Square flange receptacles.
- Self locking system.
- Time saving during installation.

Stand-Off - Double flange receptacles

- Derived from MIL-DTL-38999 Series III receptacles with PC Tail contacts.
- Double flange to avoid stress on contact terminations.
- Grounding continuity between the PCB and the appliance.

Reduced flange receptacles

- Derived from MIL-DTL-38999 Series III Jam nut receptacles.
- 41% footprint reduction & 20% weight saving on average.
- Mates with standard MIL-DTL-38999 Series III plugs.
- Available in standard & Stand-off versions

Enhanced sealing receptacles

- Air leakage limited to $1.10^{-6} \text{ cm}^3/\text{s}$.
- Intermateable with MIL-DTL-38999 Series III plugs.
- Dedicated to applications requiring low air leakage.

Thru-bulkhead receptacles

- Intermateable with MIL-DTL-38999 Series III plugs.
- Use to link two plugs through a panel.
- 6 polarization possibilities.

QUICK REFERENCE GUIDE

MIL-DTL-38999 Series III, EN3645, TV & CTV - DERIVED RANGE

387TV - Size 7 shell

- Derived from MIL-DTL-38999 Series III connectors - The smallest connector size around 38999 series III type contacts
- Available with Signals (from 9 to 1 contacts) & Grounded versions for Coax, Twinax, Quadmax, Octomax
- Fiber optics version available soon
- Integrated backshell included, except for PC Tails.

Powersafe - Power with user safety

- Qualified VG96944-04 (for Aluminum & Marine bronze versions).
- Derived from MIL-DTL-38999 Series III connectors.
- Connector dedicated to high power (up to 500V), focusing on user safety

RNJ LP - Rack and Panel Low Profile

- Rack and Panel connectors derived from MIL-DTL-38999 Series III.
- Dedicated to blind mate connections.
- Realignment on 3 axis: axial, angular and longitudinal.

SC39 - Quick disconnection

- Quick release/Breakaway connectors.
- Derived from MIL-DTL-38999 Series III.
- Full range available: lanyard, stand-off receptacles, integrated backshells ...

TVμCOM - 10Gb+

- Based on MIL-DTL-38999 Series III – Shell size 11.
- 10Gb+: exceeds 10Gb/s Ethernet following IEEE 802.3an-2006: 10GBase-T.
- Cat.6A connector according to TIA568C.2 and ISO/IEC11801 standard.

TVOP & STARTOP - Optical fiber

- Multichannel butt joint optical connector.
- Available in multimode and singlemode.
- High performance and reliability for outdoor and indoor solutions.

MIL-DTL-38999 Series II, JT - STANDARD RANGE

Metal shells - JT series (MIL-DTL-38999 II)

- Bayonet coupling connectors.
- Low profile and light weight connectors.
- Large variety of contact arrangements and shell styles.

MIL-DTL-38999 Series II, JT - DERIVED RANGE

SC39LP - Quick Disconnection Low Profile

- Quick release/Breakaway connectors.
- Derived from MIL-DTL-38999 Series II.
- Low profile: lighter & shorter connectors.

QUICK REFERENCE GUIDE

MIL-DTL-38999 Series I, HE308 & LJT - STANDARD RANGE

Metal shells - LJT Series (MIL-DTL-38999 Series I - HE308)

- Bayonet coupling connectors.
- 100% scoop-proof.
- Large choice of materials, platings & contact arrangements.

MIL-DTL-38999 Series I, HE308 & LJT - EXTENDED RANGE

Stand-off receptacles

- Derived from MIL-DTL-38999 Series I receptacles with PC-tail contacts.
- Double flange to avoid stress on contact termination.
- Grounding continuity between the PCB and the appliance.

Thru-bulkhead receptacles (HE308)

- Intermateable with MIL-DTL-38999 Series I plugs.
- Certified HE308.
- Used to link two plugs through a panel.
- HE3080BT / LJTB

MIL-DTL-38999 Series I, HE308 & LJT - DERIVED RANGE

RNJ - Rack and Panel (HE308)

- Rack and panel connector derived from MIL-DTL-38999 Series I.
- Dedicated to blind mate connections.
- Realignment on 3 axis: axial, angular and longitudinal.

LJTOP & RNJOP - Optical fiber

- MIL-DTL-38999 Series I with optical termini. (LJTOP)
- Rack and panel version available. (RNJOP)
- Available in multimode and singlemode.
- High performance and reliability for outdoor and indoor solutions.

ACCESSORIES & TOOLS

Backshells / AS85049 & proprietary

- Complete range of backshells for any needs and applications.
- Available versions: shielding, sealing, mechanical retention...
- Functions: EMI/RFI, environmental backshells...

Protective caps / Mil-spec & proprietary

- Standard metal caps (EMI, complete range of platings and lanyards) for plugs and receptacles.
- Metal self-closing caps (EMI, complete range of platings) for receptacles.
- Silicone caps with nylon cord for any receptacles and plugs.
- Plastic dust caps.

Other accessories

- Dummy receptacle, holding support, Stopper for Jam nut receptacle panel's hole.

Application tools

- Crimping tool, Contacts insertion & removal tools.

CONTACTS ARRANGEMENTS

As stated in MIL-DTL-38999 standard, insert arrangements using multi-axial contacts (Coax, Twinax, Quadrax...) should not be used in firewall applications.

MIL-DTL-38999 ^{HD} arrangements and EN3645 Quadrax and/or grounded arrangements are given for information only. Not qualified. Amphenol designation only.

^{HD} , Quadrax & differential Twinax arrangements are not rated over 175°C.

- ^{HD} High Density inserts using size 23 contacts
- ▲ Arrangements given according to MIL-STD-1560
- ^G Ground plane proprietary option available (metal insert for use with Coaxial, Twinax or Quadrax contacts). Please consult us for socket version
- ^Q Quadrax version - Inserts designed with a key to avoid contacts rotation in the cavities when using a Quadrax or Octomax contact.
- ^F Available in firewall version for Stainless Steel (Class K & Class S) connectors only
- ^Y Hermetic receptacles
- ^{TV} Hermetic receptacles - Solder cup termination, Amphenol proprietary option available
- ^{SB} 17-03, 19-19, 25-09, 25-10, 25-21, 25-47, 25-91 MIL references are delivered with D38999/62 sealing boots to seal the size 8 contacts
- △ Delivered with Twinax contacts for simple braid cable (M17/1760002, AECMA Pr EN3375-003, Raychem 10612, EPD44690, EPD44691)
- 11-01, 17-22, 19-17 and 25-08 contacts arrangements are delivered with Twinax contacts for double braid cable (PAN6421, AECMA Pr EN3375-004 Raychem 10613, EPD44692)
- Delivered with 4 Coaxial contacts for RG 180 and RG 195 wire under Amphenol designation
- Equivalent to 15-25 Layout - Formerly Pyle insert
- ^P 21-48 : Power version only. Male version to be used with 900198 contact.
- ^O 21-75 is delivered with Twinax when ordered under the MIL reference
- 25-92 contact arrangement not available in composite material

CONTACTS ARRANGEMENTS

As stated in MIL-DTL-38999 standard, insert arrangements using multi-axial contacts (Coax. Twinax. Quadrax....) should not be used in **firewall applications**.

MIL-DTL-38999  arrangements and EN3645 Quadrax and/or grounded arrangements are given for information only. Not qualified. **Amphenol designation only.**

HD, Quadrax & differential Twinax arrangements are **not rated over 175°C**.

KEYWAY POSITION - CONNECTORS POLARIZATION

A plug with a given rotation letter will mate with a receptacle with the same rotation letter. This helps avoid mismatching and mating errors.

TV & CTV - MIL-DTL-38999 Series III

The angles for a given connector are the same whether it contains pins or sockets. Master key stays fixed, minor keys rotate. Inserts are not rotated in conjunction with the master key/keyway.

MIL-DTL-38999 SERIES III & EN3645, TV/CTV - GENERAL CHARACTERISTICS

Description

- MIL-DTL-38999 Series III (American - DLA) and EN3645* (European - ASD-STAN) certified.
- Harsh environment applications.
- 9 shell sizes from size 9 to 25.
- More than 80 contacts arrangements.
- Contacts sizes from 23 TO 4/0 : Amphenol designation, AS39029 QPL or EN3155 designations.

For more information about contacts, please refer to dedicated "Contacts" catalog DOC-000081-ANG

Main features

QUICK COUPLING

- Completely mates and self-locks in a 360° turn of the coupling nut.
- Anti-decoupling device allowing high vibration performances.

CONTACT PROTECTION

- 100% scoop proof connector.
- Interfacial seal ensures sealing around each contact and prevents from electrolytic erosion.

EMI/RFI SHIELDING*

- Shell to shell bottoming.
- Grounding fingers on the plug shell.
- Conductive grounding ring.

Receptacles intermountable with MIL-DTL-38999 Series I Standard (same panel cut out)

*Depending on shell plating.

100% scoop-proof

Options

- High density insert (HD38999), Contacts size #23 ^{HD}.
- Firewall capability ^F (Stainless steel, K & S classes).
- Hermetic - Glass-sealed receptacles (Y & N classes): air leakage limited to $1 \times 10^{-7} \text{ cm}^3 \text{ per second}$ ^Y.
- Enhanced sealing versions for Receptacles (ETC / ETCI).
- Quadrax compatible insert ^Q.
- Ground plane insert ^G.
- Filter using tubular or planar technology: Protection for sensitive circuitry.
- Electrostatic Discharge Protection (ESD).
- Use of the faraday cage principle which shunts high voltage and high current discharge events.

* For more information on EN3645 standard, please consult "EN3645" brochure DOC-001007-ANG

^{HD} High density 38999 - Contacts size 23

^F Firewall insert available

^Y Available in Hermetic version

^Q Compatible with Quadrax contacts (see how to order)

^G Ground plane proprietary version available

MIL-DTL-38999 SERIES III & EN3645, TV/CTV - MECHANICAL CHARACTERISTICS

Concept

- ① Coupling nut
- ② Quick coupling thread
- ③ Ratchet
- ④ Anti decoupling device
- ⑤ Plug shell
- ⑥ Grounding spring

- ⑦ Grommet
- ⑧ Receptacle shell
- ⑨ Contact retention clips
- ⑩ Crimping pin contact
- ⑪ Crimping socket contact
- ⑫ Interfacial seal
- ⑬ Socket insert
- ⑭ Pin insert

Materials and platings

	Material	Plating	Benefit
Shell	Aluminum	Olive drab cadmium, Nickel, Black zinc nickel, Tin Zinc	Robust standard material
	Composite	Olive drab cadmium Nickel	Lightweight: up to 70% weight saving Corrosion resistance: up to 2000 hours salt spray exposure
	Stainless steel	Passivated Nickel	Firewall capability for K & S classes
	Bronze		Corrosion resistance: up to 500 hours salt spray exposure. Robustness for Marine applications
Insert	Thermoplastic or thermoset		
Grommet and interfacial seal	Fluorosilicone		
Contact	Copper alloy	Gold, Tin lead, Silver tin, Silver tin copper	

Mechanical characteristics

Characteristics	MIL-DTL-38999 & EN3645							
Durability	500 mating cycles 1500 mating cycles for composite connector fitted with H and J contacts							
Shock	Half sine wave of 300 G magnitude during 3ms per EIA-364-27							
Vibration	Sine vibrations: - 60g from -55°C to +175°C (Olive drab cadmium and Black zinc nickel) - 60g from -55°C to +200°C (Nickel and Stainless steel) Random vibrations: per EIA-364-28: - 43.92 grms at 175°C (Aluminum with Olive drab cadmium and Black zinc nickel), 50 to 2000 Hz - 43.92 grms at 200°C (Aluminum with Nickel and Stainless steel), 50 to 2000 Hz - 50.09 grms at ambient air Consult us for Durmalon (Nickel PTFE) and Green Zinc cobalt

MIL-DTL-38999 SERIES III & EN3645, TV/CTV - TV - METAL SHELLS

Metal connectors dedicated to harsh environments.

Amphenol TV Tri-start MIL-DTL-38999 Series III Connectors offer the highest performance capabilities. These connectors are MIL-DTL-38999 Series III & EN3645 qualified. Available in different materials & platings, TV Connectors are dedicated to severe environments applications where a high reliability is critical.

Main features

STANDARDIZED MILITARY CONNECTORS (DLA - MIL-DTL-38999 & ASD-STAN EN3645)

MATERIALS & PLATINGS

- Aluminum, Stainless steel or Marine bronze.
- Platings: Olive drab cadmium, Nickel, Black zinc nickel, Tin Zinc or Durmalon (Nickel PTFE).

SHELL STYLES OPTIONS

- Receptacle:
 - Square flange (Wall mount) or Jam nut.
 - Box mount or in-line versions upon request.
 - Straight plug
- G Ground plane proprietary option available (metal insert for use with Coaxial, Twinax or Quadrx contacts).
F Firewall versions available for Stainless steel shells

MIL-DTL-38999 SERIES III & EN3645, TV/CTV - HOW TO ORDER CRIMP VERSIONS

Military Designations - DLA MIL-DTL-38999 SERIES III Connectors

Military designation connectors ordered with contacts are delivered with the full quantity of required contacts plus spare contacts for each size used in the insert arrangements (1 for the contacts arrangements with 26 contacts or less, 2 spares the others - except for Coax & Twinax), sealing plugs (10% of the number of contacts) and one installation/removal tool per contact size.

1.		2.		3.		4.		5.		6.

MIL-DTL-38999 SERIES III & EN3645, TV/CTV - HOW TO ORDER CRIMP VERSIONS

Amphenol Designations - TV & CTV Crimp Connectors

1.	2.	3.	4.	5.	6.	7.	8.	9.	10.
Series	Shell type	Crimp contacts	Ground plane and Quadrax	Material and platings	Contact arrangement	Contact gender	Keying	With or without contacts	Deviation
TV	P00	R	Q	W	17-02	P	A	-	

1. Series

TV	Metal shells (Aluminum, Stainless Steel, Marine Bronze)
CTV	Composite shells

2. Shell type

	Shell type	Associated materials and platings	Temperature
P00	Square flange - Wall mount receptacle	W, ZN, ZR, TZ	+175°C
PS00 *		F, K, S, B	+200° C *
P02	Square flange - Box mount receptacle (no rear thread)	W, ZN,ZR, ZR, TZ	+175°C
PS02 *	(non-standard shells, please consult us)	F, K, S, B	+200° C *
07	Jam nut receptacle	W, ZN, ZR, TZ	+175°C
S07 *		F, K, S, B	+200° C *
01	In-line receptacle	W, ZN, ZR, TZ	+175°C
S01 *	(non-standard shells, please consult us)	F, K, S, B	+200° C *
06	Straight plug	W, ZN, ZR, TZ	+175°C
S06 *		F, K, S, B	+200° C *

* «S» Stand for 200°C compatibility. Omit for High-density inserts ☺, inserts with Quadrax contacts and differential Twinax contacts ☹ are +175°C maxi compatible.

3. Crimp contacts

R	For W, F, Z, K, S and B materials & platings (ex: TV06RW1535P)
Blank	For ZN and TZ platings (ex: TV06ZN1535P)

4. Conductive inserts & inserts for Quadrax and differential Twinax contacts (optional)

Conductive inserts are available for Aluminum versions with Olive Drab Cadmium, Tin Zinc and Electroless Nickel. For any others materials and platings please consult us.

Blank	For standard inserts without ground plane and indexation key.
G	☺ Ground Plane version - Conductive insert. Mandatory for 09-05*.
Q	☹ Inserts designed with an indexation key to avoid contacts rotation in the cavities when using a keyed contact - Size 8 contacts only.
GQ	☺☹ Ground plane version with insert designed with an indexation key.

* Please note that 09-05 insert is automatically conductive. Add the 'G' letter in all your references for this arrangement.

5. Material and platings

W		Olive Drab Cadmium
F		Electroless Nickel ✓
ZN	Aluminum	Black Zinc Nickel ✓
ZR		Black Zinc Nickel CrVI free ✓
TZ		Tin Zinc ✓
K	Stainless steel	Passivated ✓
S		Electrodeposited Nickel ✓
B	Marine Bronze* ✓	-
W	Composite	Olive Drab Cadmium
F		Nickel ✓

* Copper aluminum alloy

For other platings, please consult us (ex: Duralon Nickel PTFE)

6. Contact arrangement

Refer to page 18 for contact arrangements.

First number represents the shell size and second number is the contact arrangement.

7. Contact gender

P	Pin (500 cycles)
S	Socket (500 cycles)
H	Pin (1500 cycles. CTV only)
J	Socket (1500 cycles. CTV only)

8. Keying

Blank (for normal)	A	B	C	D	E	U (Universal) Consult us
-----------------------	---	---	---	---	---	--------------------------------

Refer to page 28 for more information.

9. With or without contacts

Blank	Connector delivered with contacts
LC	Connector delivered without contacts

10. Deviation

Deviation	Description	Shell type compatibility
-----------	-------------	--------------------------

F485	Marine Bronze plugs only – Coupling nut conforms to CECC75-201-002A (Artic gloves)	TV*06RB
------	--	---------

For other deviations, please consult us or next section - MIL-DTL-38999 Extended Range

MIL-DTL-38999 SERIES III & EN3645, TV/CTV - HOW TO ORDER PC-TAIL VERSIONS

Amphenol Designations - TV & CTV PCB Receptacles

1.	2.	3.	4.	5.	6.	7.	8.	9.
Series	Shell type	Ground plane and Quadrax	Material and plating	PC Tail contacts	Contact arrangement	Contact gender	Keying	Deviation
TV	S07	-	F	CI	15-35	P	A	

1. Series

TV	Metal shells
CTV	Composite shells

2. Shell type

	Shell type	Associated materials and platings	Temperature
P00	Square flange - Wall mount receptacle	W, ZN, ZR, TZ	+175°C
PS00 *		F, K, S, B	+200° C *
P02	Square flange - Box mount receptacle (no rear thread)	W, ZN, ZR, TZ	+175°C
PS02 *	(non-standard shells, please consult us)	F, K, S, B	+200° C *
07	Jam nut receptacle	W, ZN, ZR, TZ	+175°C
S07 *		F, K, S, B	+200° C *

* «S» Stand for 200°C compatibility. Omit for High-density inserts 📌, inserts with Quadrax contacts and differential Twinax contacts 📌 are +175°C maxi compatible.

3. Conductive inserts & inserts for Quadrax and differential Twinax contacts (optional)

Conductive inserts are available for Aluminum versions with Olive Drab Cadmium, Tin Zinc and Electroless Nickel. For any others materials and platings please consult us.

Blank	For standard inserts without ground plane and indexation key.
G	📌 Ground Plane version - Conductive insert. Mandatory for 09-05*.
Q	📌 Inserts designed with an indexation key to avoid contacts rotation in the cavities when using a keyed contact - Size 8 contacts only.
GQ	📌 📌 Ground plane version with insert designed with an indexation key.

* Please note that 09-05 insert is automatically conductive. Add the 'G' letter in all your references for this arrangement.

4. Material and platings

W		Olive Drab Cadmium
F		Electroless Nickel ✓
ZN	Aluminum	Black Zinc Nickel ✓
ZR		Black Zinc Nickel CrVI free ✓
TZ		Tin Zinc ✓
K	Stainless steel	Passivated ✓
S		Electrodeposited Nickel ✓
B	Marine Bronze* ✓	
W	Composite	Olive Drab Cadmium
F		Nickel ✓

* Copper aluminum alloy

For other platings, please consult us (ex: Duralon Nickel PTFE)

5. PC Tail contacts

CI	Standard length (5 mm)
LI	Long length (8.5 mm)
SI	Short length (size 22D contacts only) (4 mm)

For shorter contacts on box mount receptacles (P02 and PS02), please consult us.

6. Contact arrangement

Refer to page 18 for contact arrangements

First number represents the shell size and second number is the contact arrangement

7. Contact gender

P	Pin (500 cycles)
S	Socket (500 cycles)

Connectors with PC Tail contacts are always delivered with contacts.

8. Keying

Blank (for normal)	A	B	C	D	E	U (Universal) Consult us
-----------------------	---	---	---	---	---	--------------------------------

Refer to page 28 for more information.

9. Deviation

	Tin lead	Silver tin ✓	Silver tin copper ✓	Gold ✓
PC Tail finish / Tinning	F404	F404LF	F404LFC	Blank

MIL-DTL-38999 SERIES III & EN3645, TV/CTV - CTV - COMPOSITE SHELLS

Composite for weight saving & high corrosion resistance

Description

Qualified to MIL-DTL-38999 Series III & EN3645 standards, the Amphenol Composite Tri-Start connectors offers a lightweight corrosion resistant connector with the same high performances features as the metal versions.

Main features

- Composite lightweight material:
 - 20 to 40% weight saving vs Aluminum.
 - 60 to 70% weight saving vs Stainless steel.
- Platings: Olive drab cadmium or Nickel.

SHELL STYLES OPTIONS

- Receptacle: Square Flange - Wall mount or Jam nut.
- Straight plug

G Ground plane proprietary option available (metal insert for use with high speed contacts, Coaxial, Twinax or Quadrx)

Technical characteristics

Plating	Composite	
	Olive drab cadmium	Nickel
	W	F
RoHS compliant	No	Yes ✓
Salt spray (hours)	2000	
Temperature (°C)	175	200 HD
Shell to shell continuity (mΩ) G	3	
EMI shielding (@ 10GHz)	-50dB	-65dB
Firewall F	No	

G 10mΩ for grounded version

HD High density 38999, Quadrx, differential Twinax arrangements not rated over 175°C

Overall dimensions

PC-Tail lengths - TV & CTV Receptacles (MIL-DTL-38999 Series III)

Note: the most commons contact stickouts are listed in this catalog. For the others tail lengths availability, please consult Amphenol Socapex.
Back panel mounting illustrated.

For HD38999 inserts (size 23 contacts), contact lengths are listed for pins only. Consult us for socket versions.

MIL-DTL-38999 SERIES III & EN3645, TV/CTV - HERMETIC RECEPTACLES TV Y

Air leakage limited to $1.10^{-7} \text{cm}^3/\text{s}$ under 1 bar of differential pressure.

Description

TV*S*Y and TV*S*YN hermetic receptacle dedicated to applications requiring low air leakage or high protection to contamination. Amphenol also offers MIL-DTL-38999 series III qualified hermetic receptacles.

Main features

OPTIONS

- 9 shell sizes and many contact arrangements.
- Pin contacts, solder cup termination.

MATERIAL

- Shell: Stainless steel only.
- Plating: Passivated or Nickel plated
- Contact plating: gold on active area.
- Insert: Glass sealed technology.

STANDARD

- D38999/21/23/25 QPL versions available

MIL-DTL-38999 SERIES III & EN3645, TV/CTV - LANYARD RELEASE PLUGS ^L**TV breakaway fail-safe lanyard release plug.****Description**

The TV Breakaway fail-safe connectors allows a quick disconnection with an axial pull of lanyard. This range offers unequaled performances in environments requiring instant disengagement. Amphenol is qualified to provide D38999/29, /30, and /31 Types 1, 2, and 6 breakaway connectors.

**Main features****INSTANT DISENGAGEMENT & TRI-START THREAD COUPLING****INSTANT DECOUPLING AND DAMAGE FREE SEPARATION****2 UNMATING POSSIBILITIES**

- Applying a pull force to the lanyard.
- Rotation of the coupling ring.

AXIAL PULL OF THE LANYARD: 15° MISALIGNMENT**MATERIAL**

- Shell: Aluminum.
- Plating: Olive drab cadmium, Black Zinc Nickel or Nickel.

COMPLETELY INTERMATEABLE WITH STANDARD RECEPTACLES (D38999/20 & /24)**D38999/29 & D38999/30 WITH CONTACTS ARRANGEMENTS AVAILABLE FROM SIZE 11 TO 25** ^L (see page 18 to 29)**D38999/31 WITH TWO DEDICATED CONTACTS ARRANGEMENTS (MIL-STD-1760 - Stores management applications)**

- Pin only.
- 25-11 or 25-20 contact arrangements.
- Type 1, 2 or 6 upon request.
- Olive drab cadmium only.

MIL-DTL-38999 SERIES III EXTENDED RANGE - INTEGRATED BACKSHELL

All-in-one connectors : D38999 style connector with integrated backshells

Description

TV series with integrated backshell are available in plugs and receptacles versions. These lightweight and low profile solutions offer EMI performance and save time during the installation.

Main features

- Derived from MIL-DTL-38999 Series III connectors.
- Available on plugs and receptacles.
- Available with power and high-speed contacts.
- All-in-one product: time saving during order and installation.
- Total length saving: Average -47% vs standard plug with TV35 backshell.
- Average 50% lighter vs standard plug with TV35 backshell.
- High EMI Protective.
- Braid clamping (metal Band-it).
- Available materials/plating:
 - Aluminum (Olive drab cadmium, Nickel, Black zinc nickel, Tin Zinc)
 - Marine bronze
 - Stainless steel (Passivated)

Integrated backshell :

Standard combo standard plug + backshell (TV35)

Integrated backshell plug (F472)

MIL-DTL-38999 SERIES III EXTENDED RANGE - SHELL WITH CLINCH NUTS

Clinch nut self-locking system for time savings

Description

Square flange receptacles equipped with clinch nuts to ease and save time during the connector integration on panel. The self-locking system enables to block and hold the screw.

Main features

- Easy to install, time saving.
- No more nut and washer.
- Anti-decoupling.
- Back panel mounting.

Clinch nut

OPTIONS

- Shell style: Square flange - Wall mount or Box mount receptacle.
- Material: Aluminum with Olive drab cadmium, Nickel & Tin Zinc plating.
- PCB contacts CI or LI. Crimp contacts upon request.
- PCB termination plating : Gold, Tin lead, Silver tin or Silver tin copper.
- Please consult us for other configuration.

Amphenol Designations - Clinch nuts connectors

MIL-DTL-38999 SERIES III EXTENDED RANGE - STAND-OFF RECEPTACLE

Double flange receptacles for PC tail applications

Description

Double flange receptacle for PC tail applications, avoiding stress on contact terminations while providing grounding continuity.

Main features

- Receptacle with Stand-off flange shell, for attachment to printed circuit boards.
- Prevent mechanical stress on the contact terminations.
- Provide grounding continuity between PCB and box.
- Increase reliability and resistance to shocks and vibrations.

OPTIONS

- Available in Aluminum (Olive drab Cadmium, Nickel, Black zinc nickel or Tin Zinc plating), Stainless Steel & Marine Bronze
- Tin plated or lead free terminations available.
- Square Flange - Wall mount (TVP*00) and Jam nut (TV*07) shells.

MIL-DTL-38999 SERIES III EXTENDED RANGE - REDUCED FLANGE RECEPTACLE

When small dimensions & lower weight are required

Description

Reduced flange receptacle derived from 38999 series III are dedicated to applications where size and weight are critical, offering a smaller footprint and higher contact density.

Main features

- Derived from MIL-DTL-38999 Series III connectors.
- For Jam nut receptacle (TV*07).
- Higher density on panel: 41% average footprint surface reduction.
- Lighter: 20% average lighter than standard 38999 stand off receptacle.
- Mates with standard MIL-DTL-38999 Series III plugs.
- Matches MIL-DTL-38999 Series III performances.
- Improved design of the o'ring groove allowing the o'ring to stay in place.

OPTIONS

- Crimp or PC tail contacts (standard or tinned)
- Stand-off (double flange) version for PC tail contacts
- Safety Castle nut versions for wire locking

Footprint savings

Average 41% footprint reduction:

Size	38999 standard ØA _{MAX}	38999 Reduced flange (F312 & F059) ØB _{MAX}	% Ø reduction Standard vs Reduced Flange

MIL-DTL-38999 SERIES III EXTENDED RANGE - ENHANCED SEALING

Helium leakage limited to 1.10^{-6} cm³ per second

Description

TV**ETC, TV**ETCI, TV**ETLI receptacles with enhanced sealing are derived from the standard MIL-DTL-38999 Series III receptacles. These receptacles help avoiding leakage and offer a protection against external contamination.

Main features

- Receptacles with enhanced sealing – intermeatable with MIL-DTL-38999 Series III plugs
- Available on standard signals arrangements with Solder Cup or PC-Tails pin contacts
- Operating Temperature range: -55 / +125°C.
- Initial sealing performance: Helium leakage < 1.10^{-6} cm³/s under 1 bar of differential pressure.
- Designed for unpressurized area.
- Avoid any stress on contacts before, during and after wave or iron soldering process.
- With Stand-off shells, shells must be threaded onto the PC Board before any soldering.
- We advise to use HFE cleaning product and strongly not recommend any Vigon based one.

CONTACTS TERMINATIONS	How to order

MIL-DTL-38999 SERIES III EXTENDED RANGE - THRU-BULKHEAD

Receptacles using 38999 III inserts dedicated to thru-bulkhead applications

Description

TVB series offers thru-bulkhead receptacles to be used for the feed through of circuits on bulkheads or panels. These feedthrough receptacles are fully compatible with standard plugs.

Main features

- Intermateable with MIL-DTL-38999 Series III plugs.
- 8 shell sizes (from size 11 to 25).
- Interfacial seal on male side.
- Materials: Aluminum or Marine Bronze.
- Platings (Aluminum only): Olive drab cadmium, Nickel, Black zinc nickel
- Polarization possibility.

MIL-DTL-38999 SERIES III DERIVED RANGE - 387TV - SIZE 7 SHELL

The smallest connector derived from MIL-DTL-38999 series III

Description

Size 7 connectors derived from MIL-DTL-38999 Series III dedicated to application where miniature size and low weight are critical. This range can accommodate a size 8 High-Speed contacts (Coax, Twinax, Quadrax, 1Gb & 10 Gb Octomax), any 38999 size 9 contacts arrangement and Fiber Optics.

Main features

DERIVED FROM MIL-DTL-38999 SERIES III CONNECTORS.

MATERIALS AND PLATINGS:

- Aluminum: Olive drab cadmium, Nickel, Black zinc nickel, Tin Zinc
- Stainless Steel (Passivated)
- Marine Bronze

AVAILABLE SHELLS:

- Plugs with integrated backshells.
- Receptacles :
 - Jam-nut receptacles : Standard, Reduced flange or Stand-off
 - Reduced flange
 - Oval flange receptacles

CRIMP VERSIONS SHELLS ARE ALWAYS DESIGNED WITH AN INTEGRATED BACKSHELL.

MANY POSSIBILITIES :

- 07-05 : Grounded Size 8 Cavity (Coax, Twinax, Quadrax and Octomax)
- All size 9 38999 inserts including High density (Contacts size 23 to 12)
- Fiber optics (387TV with MT ferrule, 387TV OP with double Luxbeam Q8D also available)

CONTACTS - COPPER VERSIONS:

- Crimp or PC tail contacts - several tinning available.
- For Grounded High-Speed version (07-05), plugs are always delivered with sockets contacts and receptacles with pin contacts.

IP68: 48 hours under 2 meters of water for Jam nut receptacle and mated plug when using a heatshrink boot and adhesive between the plug and the cable.

MIL-DTL-38999 SERIES III DERIVED RANGE - POWERSAFE - VG96944

Power connector qualified VG96944 and designed for user safety

Description

PowerSafe connectors are derived from MIL-DTL-38999 Series III connectors and dedicated to high power supply in harsh environments. These connectors provide the user with the highest user safety, shielding effectiveness & environmental performances. PowerSafe connectors follow the European standard for power equipment DIN EN 61984 (former VDE 0627).

Main features

TWO INSERTS TYPES WITH DIFFERENT CHARACTERISTICS

- "E" inserts – up to 200°C & CTI* <100
Available in Amphenol Proprietary designations only
- "V" inserts – VG96944 compliant – up to 150°C
& CTI* between 175 & 400 (Material Group IIIa)
Available in VG designations & Amphenol Proprietary ones

*(Comparative Tracking Index)

FIRST MATE/LAST BREAK: one earth contact directly linked to the shell, stays in place even in case of overheats.

LAST MATE/FIRST BREAK: one pilot contact with a breaking capacity (brings the information to a relay to turn on/off the power).

These features protect the user even if the connectors are mated or unmated. Amphenol recommends to connect /disconnect connector when unloaded.

IP28 WHEN UNMATED, IP68 WHEN MATED

HIGH ROBUSTNESS AND EXCELLENT ENVIRONMENTAL PERFORMANCES.

SEVERAL MATERIALS & PLATING

- Aluminum (Olive drab Cadmium, Nickel, Black Zinc Nickel, Tin Zinc platings)
- Marine Bronze
- Stainless steel (Passivated, Nickel plated upon request)

EMI/RFI PROTECTION : Shell to shell bottoming and grounding fingers on the plug shell.

ACCESSORIES:

- Caps: compatible with MIL-DTL-38999 Series III caps.
- Backshells: compatible with AS85049 backshells for MIL-DTL-38999 Series III connectors, VG95319-1011G, as well as TV35 & TVNSA backshells.

Same panel drilling as standard MIL-DTL-38999 Series III connectors.

Added benefits

- PowerSafe is compliant with **IP2X Electrical Safety standard**, which guarantees touch-proof protection of live parts.
- Qualified according the most stringent standard **VG96944** (applicable to Aluminum with Olive Drab Cadmium or Tin Zinc finish and Marine Bronze versions only).
- Safety use design following **DIN EN-61984 (former VDE 0627)**.

Concept

- ① Coupling nut
- ② Quick coupling thread
- ③ Anti-decoupling device
- ④ Plug shell
- ⑤ Grounding spring
- ⑥ Grommet
- ⑦ Receptacle shell
- ⑧ Contact retention clips
- ⑨ Phase and neutral socket contact

- ⑩ Pilot socket contact
- ⑪ Protective socket contact
- ⑫ Phase and neutral pin contact
- ⑬ Pilot pin contact
- ⑭ Protective pin contact
- ⑮ Interfacial seal
- ⑯ Socket insert
- ⑰ Pin insert

MIL-DTL-38999 SERIES III DERIVED RANGE - POWERSAFE - VG96944

Amphenol **PowerSafe** range offers 6 contact arrangements to fit all your power needs, with single-phase & three-phase layouts, and a choice of 2 insert materials for each layout depending on the need :

→ **V** inserts : developed according to VG96944 standard with a material less impacted by the disconnection under load. Able to withstand a maximum temperature of 150°C & have a CTI between 175 & 400 (Material Group IIIa)

→ **E** inserts : using the same material than our 38999 series connectors and able to withstand a temperature up to 200°C

Single-Phase Layouts

V insert	13-V4	15-V4	21-V4	23-V4
E insert	13-E4	15-E4	21-E4	23-E4
Pilot contact (P)	1 Size 20	1 Size 16	1 Size 16	1 Size 16
Phase & neutral (N & L)	2 Size 16	2 Size 12	2 Size 6	2 Size 4

MIL-DTL-38999 SERIES III DERIVED RANGE - POWERSAFE - VG96944

Keyway polarization

A plug with a given rotation letter will mate with a receptacle with the same rotation letter. The angles for a given connector are the same whether it contains pins or sockets. Minor keys stay fixed, master key rotates.

Keyway identification letter is (Blank) for Normal, A, B, C or D.

Size	Position of the major key				
	NORMAL BLANK	A	B	C	D
13	100	80	68	132	120
15	100	79	66	134	121

MIL-DTL-38999 SERIES III DERIVED RANGE - POWERSAFE - VG96944

Reduced flange receptacle are derived from 38999 series III Jam nut receptacles and dedicated for applications where size & weight are criticals, offering un smaller footprint and lower weight.

Main features

- For Jam nut receptacle (TV07/TVS07).
- Higher density on panel: **41% average footprint surface reduction.**
- Lighter: **20% average lighter than standard 38999**
- Mates with standard **PowerSafe** plug and caps.
- Matches the **PowerSafe** performances.
- Improved design of the o'ring groove allowing the o'ring to stay in place.

With Castle nut

MATED PAIR

RECEPTACLE FRONT FACE

Standard
TV*07***Jam nut
Reduced flange
TV*07***F312

Footprint savings

Average 41% footprint reduction:

Size	Standard PowerSafe ØA _{MAX} (mm)	PowerSafe Reduced flange (F312) ØB _{MAX} (mm)	Ø Reduction
13	38.4	28.1	46%
15	41.6	32.1	40%
17	44.8	36.1	35%
21	52.7	41.1	39%
23	55.9	44.1	38%
25	59	48.1	34%

All others dimensions remains the same in standard or reduced flange (lengths, threads, etc.).

Panel hole dimensions

Size	E recommended	ØG +0.1 0	H +0.1 0

MIL-DTL-38999 SERIES III DERIVED RANGE - POWERSAFE - VG96944

- Dedicated to **PowerSafe**
- Universal coding : Compatible with all Keyway polarizations
- Can be used as a backshell tightening tool
- Same dimensions and Panel holes than a standard Square Flange Receptacle (see page 109).

All dimensions are given for information only and are in mm, except as otherwise specified | *in mm: 1mm=0.03937 inch

Due to technical modifications, all information provided is subject to change without prior notice

MIL-DTL-38999 SERIES III DERIVED RANGE - RNJLP - RACK & PANEL LOW PROFILE

Low Profile Rack and Panel connector for blind mate connections.

Description

Rack and panel range using MIL-DTL-38999 Series III inserts. Realignment capabilities & floatability on 3 axis. Connection between a rack (moving unit) and a panel (fixed structure) without manually coupling/uncoupling the connectors. Low profile version for reduced distance between the racks: 7.3mm panel to rack distance (Square flange) or 16mm (Jam nut) instead of 36mm with standard RNJ / HE308.

Main features

EASY TO USE

- Push to mate, easy and fast connection.
- Locking to be ensured by mechanical device on the rack.

AXIAL, ANGULAR AND LONGITUDINAL FLOATABILITY

OPTIMIZED DESIGN

- Low profile: shorter distance between panels (same than ARINC404).
- Light weight: 20% weight savings versus standard RNJ (plug) for square flange.
- Sealing:
 - Plug rear membrane protected by a metal cap on plug.
 - O-ring gasket on receptacle and plug for sealing.
 - Interfacial seal on male insert.

EMI/EMP SHIELDING

- Grounding fingers ensuring shielding before contact mating.

MATERIAL

- Aluminum with Olive drab cadmium, Nickel or Black zinc nickel plating
- Stainless steel Passivated

38999 SERIES III ARRANGEMENTS AND CONTACTS

- Available with high-density inserts ^{HD}
- Shells size from 11 to 25.
- Rear accessory possibility compatible with MIL-DTL-38999 Series III backshells.
- Same tools than MIL-DTL-38999 Series III.

OPTIONS

- Crimp or PC tail terminations
- Jam nut or Square flange: [RNJLP2***/RNJLP4***](#) or [RNJLP6***/RNJLP8***](#).
- Stand-off option on receptacles [RNJLP27***F459](#) & [RNJLP67***F459](#).

MIL-DTL-38999 SERIES III DERIVED RANGE - SC39 - QUICK DISCONNECT

Quick disconnection solution with lanyard possibilities.

Description

Quick disconnect range derived from MIL-DTL-38999 Series III. Instant decoupling and damage free separation with a direct pull on the lanyard/harness. Quick breakaway fail-safe unmating. Weight & space savings compare to others quick disconnect solutions on the market.

Main features

QUICK-EASY INSTALLATION & EMERGENCY DISCONNECT CONNECTOR. NO COUPLING NUT, NO THREADING.

CONTACT PROTECTIVE SCOOP-PROOF SHELL

- Interfacial seal ensuring sealing around each contact.
- Durability ≥ 1500 cycles, with suitable contacts.

MATERIAL

- Shell: Aluminum and Stainless steel
- Plating: Olive drab cadmium, Nickel, Passivation (Stainless steel).

SHELLS

Straight plug and Square flange, Jam nut, or in-line receptacle.
Size 09 to 17. Upper sizes available on request.

38999 SERIES III CONTACTS ARRANGEMENTS.

COUPLING SPRING: Dual action on receptacle for mechanical retention, with different forces options:

- Standard version: from 50 to 100N.
- Low force separation capabilities: less than 50N. **SC39****L**

OPTIONS

- Lanyard release: **SC39RL*****
- Integrated backshell: **SC39***F472**
- Stand-off for printed circuit board: **SC39***F459**

	Shell type	Associated materials and platings	Temperature
P00	Square flange receptacles	W	+175°C
PS00*		F, K, S, B	+200°C*
07	Jam nut receptacles	W	+175°C
S07*		F, K, S, B	+200°C*

* «S» Stand for 200°C compatibility. Omit for High-density inserts . Inserts with Quadrax contacts and differential Twinax contacts  are +175°C maxi compatible.

2. Low force option

Blank	For standard versions
L	Low force version - Consult us to confirm availability

3. Conductive inserts & inserts for Quadrax and differential Twinax contacts (optional)

Conductive inserts are available for Aluminum versions with Olive Drab Cadmium and Nickel. For any others materials and platings please consult us.

Blank	For standard inserts without ground plane and indexation key.
G	 Ground Plane version - Conductive insert. Mandatory for 09-05*.
Q	 Inserts designed with an indexation key to avoid contacts rotation in the cavities when using a keyed contact - Size 8 contacts only.
GQ	 Ground plane version with insert designed with an indexation key.

* Please note that 09-05 insert is automatically conductive. Add the 'G' letter in all your references for this arrangement.

4. Material and platings

	Shell material	Shell finish
W	Aluminum	Olive drab cadmium
F		Nickel 
K	Stainless steel	Passivated 

5. PC Tail contacts

CI	Standard length
LI	Long length
SI	Short length (only for size 22D contacts)

6. Insert arrangements

Refer to page 18 for contact arrangements
First number represents the shell size and second number is the contact arrangement

7. Contact gender

P	Pin (500 cycles)
S	Socket (500 cycles)

Connectors with PC Tail contacts are always delivered with contacts.

8. Keying

Blank (for normal)	A	B	C	D	E
-----------------------	---	---	---	---	---

9. Deviation

Shell style	PC Tail finish / Tinning				Shell type compatibility
	Tin lead	Silver tin 	Silver tin copper 	Gold

MIL-DTL-38999 SERIES III DERIVED RANGE - TV μ COM - 10GB+

10Gb/s Ethernet on a Size 11 MIL-DTL-38999 series III shell

Description

μ Com-Series is a new range of connectors designed to address the latest trends of the military industry: miniaturization and high speed. With the highest resistance for use in the harshest environments. TV μ Com combines μ Com-10G+ speed with a MIL-DTL-38999 Series III Size 11 shell robustness.

Main Features

- 10Gb+: exceeds 10Gb/s Ethernet following IEEE 802.3an-2006: 10GBase-T.
- Cat.6A connector according to TIA568C.2 and ISO/IEC11801
- 4 pairs totally insulated throughout the connector
Minimum cross-talk between the four pairs.
- Patented special interfacial shapes
Minimum perturbation at the interface of each pair.
- 38999 size 11 shell with a choice of materials & platings :
 - Aluminium with Olive drab cadmium, Nickel ✓
 - or Black Zinc Nickel ✓ plating
 - Marine bronze ✓
- IP68 sealing mated and unmated for PCB receptacles.
- 1500 Vrms dielectric withstanding voltage.
- Temperature range: - 55°C / + 125°C.
- Machined & gold plated solder and crimp contacts
Design & performance according to the innercontact of:
M39029/77-429#16 M39029/76- 425#16 38999 Coaxial contact.
Contacts are crimped with standard crimping tool M22520/2-01:
+ Amphenol μ Com positioner.
- μ Com contact module: machined brass.
- Solder contact: max AWG24.
- Crimp contact: AWG 24 to 28.

MIL-DTL-38999 SERIES III DERIVED RANGE - TVOP - FIBER OPTIC IN A 38999 SHELL**38999 shell with Standard Optical termini (Ø 2.5 mm).****Description**

The TVOP connector is an optical version of the MIL-DTL-38999 Series III connector, which uses standard 2.5 mm telecom optical termini in dedicated high precision inserts. It is designed to provide high level of performance and reliability and cost effective solution for outdoor and indoor applications.

Main features

- 1 to 8 channels.
- Available in multimode, singlemode PC and singlemode APC.
- 0.5 dB typical insertion loss in multimode and singlemode.

Arrangement

11-2

13-4

17-8

**MIL-DTL-38999 SERIES III DERIVED RANGE - STARTOP - 38999 WITH FIBER OPTIC****38999 shell with Optical termini size 16 MIL-PRF-29504.****Description**

The STARTOP connector is made of standard MIL-DTL-38999 electrical connectors, using size 16 MIL-PRF-29504 optical termini. Hybrid versions (electrical and optical) are available, for further details please consult us.

Main features

- 1 to 8 channels.
- Available in multimode.
- 0.8 dB typical insertion loss.

Arrangements

11-02

13-04

15-05

17-08

For further details, please consult the EWOC catalog (DOC-000503-ANG).

MIL-DTL-38999 SERIES II, JT RANGES

Table of contents

MIL-DTL-38999 Series II, JT / STANDARD, EXTENDED & DERIVED RANGES	151
STANDARD RANGE - JT SERIES	152
General characteristics	152
Technical characteristics	153
Electrical characteristics	154
JT Series (MS27***)	157
EXTENDED RANGE	161
Stand-Off receptacle - F459	161
Integrated backshell - F472	163
DERIVED RANGE	164
SC39 LP - Breakaway Low Profile connector	164

THE SERIES II JT SERVES VARIOUS MARKETS, INCLUDING:

Commercial Avionics
& Airframe

Military Avionics
& Airframe

Military vehicles

C4ISR

All dimensions are given for information only and are in mm, except as otherwise specified | *in mm: 1mm=0.03937 inch

MIL-DTL-SERIES II, JT - GENERAL CHARACTERISTICS

Light weight & space saving designed connectors for aerospace

Description

The JT connectors are in accordance with MIL-DTL-38999 Series II standard. These connectors were developed to meet the needs of the aerospace industry. They offer a large variety of contact arrangements and shell styles, with maximum weight/space savings and reliability.

Main features

- LOW PROFILE CONNECTOR, LIGHTWEIGHT & SPACE SAVING DESIGN COMPARE TO LJT - MIL-DTL-38999 SERIES I.**
- 3 POINTS BAYONET LOCK SYSTEM:** Quick positive coupling
- CONTACT PROTECTION:** Improved interfacial seal ensures sealing around each contact
- EMI/RFI PROTECTION:** Optional grounding fingers on the plug shell
- 9 shell sizes** from 08 to 24
- SHELL MATERIALS & FINISHES**
Aluminum with Olive Drab Cadmium, Nickel ✓ or Black Zinc Nickel ✓ plating

- DIFFERENT STYLES & OPTIONS AVAILABLE:**
- Jam nut & Square flange - wall mount and box mount, in-line receptacle, straight plug
 - Available with Stand-off double flange for receptacles **JT***F459**
 - Available with integrated backshells **JT***F472**
 - Enhanced sealing versions **JT***ETC*****
- CONTACTS ARRANGEMENTS & TERMINATIONS:**
- More than 50 arrangements of contacts (see page 18)
 - Size 12, 16, 20, 22D contacts
 - Crimp, PCB, signal and power contacts

Concept

Materials and platings

	Material	Plating	Benefit
Shell	Aluminum	Olive drab cadmium, Nickel, Black zinc nickel	Robust standard material
Insert	Thermoplastic		
Grommet and interfacial seal	Fluorosilicone		
Contact	Copper alloy	Gold, tin, silver tin, silver tin copper	

✓ : RoHS compliant
All dimensions are given for information only and are in mm, except as otherwise specified | *in mm: 1mm=0.03937 inch

MIL-DTL-SERIES II, JT - TECHNICAL CHARACTERISTICS

Materials characteristics

	Shell material	Shell finish	Salt spray exposure per EIA 364.26 (hours)	Class norm	Amphenol designation	Operating temperature (°C)	
						Min	Max
Waterproof (IP X7)	Aluminum	Olive drab cadmium	500	B	JT** 014	- 65	+ 175
		Nickel	48	F	JT** 023	- 65	+ 200
		Black zinc nickel	96	-	JT** 033K	- 65	+ 175

Mechanical characteristics

Characteristics	MIL-DTL-38999					
Durability	500 cycles					
Shock	Half sine wave of 300 G magnitude during 3ms per EIA-364-27					
Vibration	Sine vibrations: - 60g from -55° to +175° (Olive drab cadmium and Black zinc nickel) - 60g from -55° to +200° (Nickel and Stainless steel)					
	Random vibrations: per EIA-364-28: - 43.92 grms at 175°C (Olive drab cadmium and Black zinc nickel), 50 to 2000 Hz - 43.92 grms at 200°C (Nickel and Stainless steel), 50 to 2000 Hz - 50.09 grms at ambient air Consult us for Duralon (Nickel PTFE) and Green Zinc cobalt					
Contact retention force	Size	22D	20	16	12	
	Max load (N)	45	67	110	110	

Environmental characteristics

Characteristics	MIL-DTL-38999. M version. Amendment 2
Humidity	§3.29
Air leakage	§3.10
Fluid immersion	Per EIA 364.10 : - Hydraulic fluid, per MIL-H-5606. - Turbine fluid, grade JP-8, per MIL-DTL-83133 (NATO TYPE 34). - Lubricating oil, per MIL-L-7808. - Lubricating oil, per MIL-PRF-23699. - Defrosting fluid, per MIL-A-8243. - Cleaning compound, diluted for cleaning, per MIL-PRF-87937 type I alkaline base. - Gasoline, per ASTM-D-4814.- Gasohol, per A-A-52530. - One part isopropyl alcohol, per TT-I-735, grade A or B ; and 3 parts mineral spirits, per A-A-2904, type II, grade A or P-D-680, type I, by volume. - Coolant, dielectric fluid, synthetic silicate ester base MIL-PRF-47220 (Coolanol 25) or equivalent. - Hydraulic fluid M2-V Chevron oil ST0145LB0001 or equivalent;

Keyway position

A plug with a given rotation letter will mate with a receptacle with the same rotation letter. The angles for a given connector are the same whether it contains pins or sockets. Master key stays fixed, minor keys rotate. Inserts are not rotated in conjunction with the master key/keyway.

Shell Size	Normal	References			
		A	B	C	D

MIL-DTL-SERIES II, JT EXTENDED RANGE - STAND-OFF RECEPTACLE

Double flange receptacles for PC tail applications.

Description

Double Flange receptacles for PC tail applications, to avoid stress on contact terminations while providing grounding continuity between the PCB & the box.

Main features

- Receptacle with Stand-off flange shell, for attachment to printed circuit boards.
- Prevent mechanical stress on the contact terminations.
- Provide grounding continuity between PCB and box.
- Increase reliability and resistance to shocks and vibrations.

OPTIONS:

- Square Flange - Wall mount (JT PQ00) or Jam nut (JT 07) shells.
- Tin plated or Lead free (tin-silver or tin-silver-copper) contacts finishes available.

MIL-DTL-SERIES II, JT EXTENDED RANGE - INTEGRATED BACKSHELL

All-in-one 38999 Series II plugs with an integrated backshell

Description

JT series with integrated backshell are lightweight and low profile all-in-one solution offering great EMI performances and saving time during the installation.

Main features

- All-in-one product : time saving during order and installation
- High EMI Protection
- Quick, easy, cost effective cabling process
- Braid campling (micro and macro Band-it)

OPTIONS:

- Aluminum shells.
- Straight plugs, for receptacles consult us

MIL-DTL-SERIES II, JT DERIVED RANGE - SC39LP - LOW PROFILE BREAKAWAY

Low profile Breakaway connectors - Quick disconnect

Description

Quick disconnect range derived from MIL-DTL-38999 Series II. No coupling no threading. Instant decoupling and damage free separation with a direct pull on the harness. Quick breakaway fail-safe unmating Weight & space savings compare to others quick disconnect solutions on the market.

Main features

COMPACT & SPACE SAVING: 30% shorter than standard SC39 - see page 126.

38999 SERIES II CONTACTS ARRANGEMENT.

SHELLS

- Plug with integrated backshell
- Square flange and Jam nut receptacle.
- Size 08 to 14. Upper sizes available on request.
- N, A or B polarization

CONTACT PROTECTION

- Interfacial seal ensuring sealing around each contact.

MATERIAL

- Shell: Aluminum, Stainless steel
- Plating: Olive drab cadmium, Nickel, Passivation (Stainless steel).

Amphenol Designations - SC39LP Crimp connectors

MIL-DTL-SERIES I, LJT - GENERAL CHARACTERISTICS

Bayonet coupling connectors designed for military and aerospace industries.

Description

Amphenol Socapex is a MIL-DTL-38999 Series I QPL and HE308 qualified manufacturer. The LJT product range was developed to meet the needs of the aerospace and military industries. It offers bayonet coupling connectors with a large variety of contact arrangements and shell types, maximum weight / space saving and a 100 % contact protection.

Main features

SHELL MATERIAL

- Aluminium alloy.
- Marine bronze available - ✓ RoHS compliant.

PLATINGS

- Olive drab cadmium plating.
- Electroless nickel plating - ✓ RoHS compliant.
- Black zinc nickel plating - ✓ RoHS compliant.
- For other platings, please consult us.

9 SHELL SIZES FROM 09 TO 25

EMI/RFI PROTECTION

- Grounding fingers on the plug shell.
- Grounded versions available ^G.

CONTACTS

- More than 60 contacts arrangements high-speed and power possibilities.
- Size 4/0, 2/0, 4, 8, 12, 16, 20, 22 contacts.
- Signal, Power, Coax, Twinax, Optical termini, Quadrax and differential Twinax possibilities;
- Crimp and PC-Tail terminations (Tin and Lead-free finishes available for PCB contacts)

CONTACT PROTECTION

- 100 % scoop-proof shell.
- Improved interfacial seal ensuring sealing around each contact and preventing electrolytic erosion.

Concept

- ① Socket insert
- ② Grommet
- ③ Crimping socket contact
- ④ Grounding fingers (EMI)
- ⑤ Interfacial seal
- ⑥ Crimping pin contact
- ⑦ Pin insert
- ⑧ Sealing
- ⑨ Contact retention clips
- ⑩ Receptacle seal

Materials and platings

	Material	Plating	Benefit
Shell	Aluminum	Olive drab cadmium, Nickel, Black zinc nickel	Robust standard material
	Marine bronze	-	Corrosion resistance: up to 1000 hours salt spray exposure Robustness for marine applications
Insert	Thermoplastic	-	
Grommet and interfacial seal	Fluorosilicone	-	
Contact	Copper alloy	Gold, tin, silver tin, silver tin copper	

^G Ground plane proprietary option available (metal insert for use with Coaxial, Twinax or Quadrax contacts). Please consult us for socket version

^{HD} High density 38999, Quadrax and differential Twinax arrangements not rated over 175°C

Characteristics	MIL-DTL-38999. M version. Amendment 2
Humidity	\$3.29
Air leakage	\$3.10.
Fluid immersion	Per EIA 364.10 : - Hydraulic fluid, per MIL-H-5606. - Turbine fluid, grade JP-8, per MIL-DTL-83133 (NATO TYPE 34). - Lubricating oil, per MIL-L-7808. - Lubricating oil, per MIL-PRF-23699. - Defrosting fluid, per MIL-A-8243. - Cleaning compound, diluted for cleaning, per MIL-PRF-87937 type I alkaline base. - Gasoline, per ASTM-D-4814.- Gasohol, per A-A-52530. - One part isopropyl alcohol, per TT-I-735, grade A or B ; and 3 parts mineral spirits, per A-A-2904, type II, grade A or P-D-680, type I, by volume. - Coolant, dielectric fluid, synthetic silicate ester base MIL-PRF-47220 (Coolanol 25) or equivalent. - Hydraulic fluid M2-V Chevron oil ST0145LB0001 or equivalent;

Keyway position

A plug with a given rotation letter will mate with a receptacle with the same rotation letter. The angles for a given connector are the same whether it contains pins or sockets. Master key stays fixed, minor keys rotate. Inserts are not rotated in conjunction with the master key/keyway.

MIL-DTL-SERIES I, LJT EXTENDED RANGE - STAND-OFF RECEPTACLE

Double flange receptacles for PC tail applications.

Description

Double Flange receptacles for PC tail applications, to avoid stress on contact terminations while providing grounding continuity between the PCB & the box.

Main features

- Receptacles with stand-off flange shells. for attachment to printed circuit boards.
- Prevent mechanical stress on the contact terminations.
- Provide grounding continuity between the PCB and the box.
- Increase reliability and resistance to shocks and vibrations.

OPTIONS:

- Square Flange - Wall mount (LJT PQ00) or Jam nut (LJT 07) shells.
- Tin plated or Lead free (tin-silver or tin-silver-copper) contacts available.

AMPHENOL	DEVIATIONS
Lead tinned stand off	F459
Silver tinned stand off	F459LF
Silver copper tinned stand off	F459LFC

MIL-DTL-SERIES I, LJT EXTENDED RANGE - INTEGRATED BACKSHELL

All-in-one 38999 Series I connectors with an integrated backshell

Description

Available on plugs and receptacles, lightweight and low profile solutions offering EMI performances.

Main features

- All-in-one product : time saving during order and installation
- High EMI Protection
- Quick, easy, cost effective cabling process
- Braid campling (micro and macro Band-it)

OPTIONS:

- Aluminum or Marine bronze shells.
- Straight plugs, Jam nut or In-line receptacles

MIL-DTL-SERIES I, LJT EXTENDED RANGE - ENHANCED SEALING

Helium leakage limited to 1.10^{-6}cm^3 per second.

Description

LJT07*ETC*** / ETCI*** / ETLI*** receptacles with enhanced sealing are derived from the standard MIL-DTL-38999 Series I Jam nut receptacles. The inserts have been modified to ensure an air leakage of $< 1.10^{-6} \text{cm}^3/\text{s}$ under 1 bar of differential pressure.

Main features

- Receptacles with enhanced sealing – interchangeable with MIL-DTL-38999 Series I plugs.
- Available on standard signals arrangements with solder cup or PC tails pin contacts.
- Operating Temperature range: $-55 / +125^\circ\text{C}$.
- Initial sealing performance: Helium leakage $< 1.10^{-6} \text{cm}^3/\text{s}$ under 1 bar of differential pressure.
- Designed for unpressurized area.
- Avoid any stress on contacts before, during and after wave or iron soldering process.
- With Stand-off shells, shells must be threaded onto the PC Board before any soldering.
- We advise to use HFE cleaning product and strongly not recommend any Vigon based one.

MIL-DTL-SERIES I, LJT EXTENDED RANGE - THRU-BULKHEAD

Receptacles using 38999 inserts dedicated to through bulkhead applications.

Description

LJT / HE308 OBT connectors are dedicated to feed through of circuits on bulkhead or panels in harsh environments.

Main features

- Intermateable with MIL-DTL-38999 Series I plugs.
- Available in 8 shells sizes (11 to 25)
- Aluminum shells with OD. Cadmium or , Nickel or Black Zinc Nickel plating.
- Pin and socket double ended contacts.
- Interfacial seal on male side.
- Polarization possibility: Normal, A, B, C and D.

MIL-DTL-SERIES I, LJT EXTENDED RANGE - RNJ - RACK & PANEL

Rack and Panel range for blind mate connections

Video available to help you on our website www.amphenol-socapex.com/en/videos:
RNJ - Rack and Panel Blind Mate Connectors

Description - RNJ Range

Rack and panel range derived from MIL-DTL-38999 Series I standard and HE308 qualified Realignment and floatability capabilities.

Connection between a rack (moving unit) and a panel (fixed structure) without manually coupling/uncoupling.

Main features

EASY TO USE: Push to mate easy and fast connection.

AXIAL, ANGULAR AND LONGITUDINAL FLOTABILITY

EMI/EMP SHIELDING: Grounding fingers ensuring shielding before contact mating.

CONTACTS PROTECTION: Scoop-proof design.

HIGH DURABILITY: 500 mated cycles.

MATERIAL

- Shell: Aluminum or Stainless steel
- Plating: Olive drab cadmium, Nickel, Black zinc nickel or Passivated (Stainless steel)

38999 SERIES I & III STANDARD ARRANGEMENTS AND CONTACTS

- Available with high-density inserts ^{HD}.
- Shells from size 11 to 25.
- Power version available (23P1 & 25P1)
- Optical termini upon request, please consult us.

OPTIONS

- Jam nut or Square flange: **RNJ2***RNJ4***** or **RNJ6***RNJ8*****.
- Plug: rear accessory option **RNJ26***** & **RNJ66*****, compatible with M85049 accessories for 38999 Series I connectors.
- Receptacle: stand-off option **RNJ27***F459** & **RNJ67***F459**.

STANDARD: HE308, for related arrangements (DAT C5935x0005 HE308 21, 25, 26 & 27T).

MIL-DTL-SERIES I, LJT EXTENDED RANGE - RNJ - RACK & PANEL

Floating features

Environmental characteristics

Qualified according to HE308 standard	
Air leakage (cm³/h)	Receptacle RNJ27: limited to 16 cm³/h @ 2 bar Plug RNJ26/RNJ46: limited to 16 cm³/h @ 2 bar, front face - limited to 4cm³/h @0.5 bar, rear face Extra sealing option upon request
Corrosion resistance. Salt spray (hours)	Aluminum : - Olive drab cadmium 500h - Electroless nickel 48h - Black zinc nickel, 96h - Tin Zinc, 500H Stainless steel - Passivated or Nickel plated, 500h
Fluid resistance	MIL-L-7808 (lubricating oil) MIL-L-23699 (lubricating oil) MIL-H-5606 (hydraulic fluid) Hydraulic fluid (Chevron M2V) MIL A-8243 (defrosting fluid) MIL- C- 87936 type I MIL-T-5624 (JP5) MIL-C-47220 or Coolanol 25 or equivalent MIL-G-3056 type I (gasoline) Isopropyl alcohol per TT-I-735 grade A or B mixed with mineral spirit TT-T-291 type I or P-D-680 type I
Durability	500 cycles
Temperature	-65°C to +200°C (Aluminum Nickel plated, Stainless steel Passivated or Nickel plated) -65°C to +175°C (Aluminum, Olive drab cadmium and Black zinc nickel plated)

Shown in this section are the specific technical characteristics. For non specified characteristics, consult LJT / MIL-DTL-38999 I section

Mating and unmating forces

Following HE308 standard

Size	Maximum mating force (daN)	Maximum unmating force (daN)
11	20	12
13	30	13
15	35	15
17	50	16
19	55	18
21	65	22
23	80	27
25	102	34

All dimensions are given for information only and are in mm, except as otherwise specified | *in mm: 1mm=0.03937 inch

Front panel mounting	NA	✓	NA	NA	✓	NA

Plug rear accessory assembly & Clamping bush

RNJ26*** & RNJ66*** plugs are compatible with M85049 accessories for 38999 Series I connectors.

Locking glue has to be put on the rear thread of the connector before rear accessory assembly.

The use of a holding support to mount the accessory on the plug is mandatory to prevent strain on the internal set of the plug.

MIL-DTL-SERIES I, LJT EXTENDED RANGE - RNJ - RACK & PANEL

When small dimensions & lower weight are critical

Description

Rack and Panel connectors offering realignment and floatability for blind mate applications in harsh environments, with a smaller flange and weight.

Main features

- Derived from RNJ, same performances, floatability and realignment
- Higher density on panel and lower weight than Standard RNJ
- Available for Jam nut plug and receptacle only
- Compatible with RNJ Standard range (including Square Flange)
- Available with all 38999 series I & III inserts, including HD ones
- Crimp version, with PC tail contacts and in stand off version.

MATERIAL

- Shell: Aluminum or Stainless steel
- Plating: Olive drab cadmium, Tin Zinc, Nickel, Black zinc nickel or Passivated (Stainless steel)

MIL-DTL-SERIES I, LJT EXTENDED RANGE - LJTOP - BAYONET FIBER OPTIC

Optical fiber in a LJT shell.

Description

Optical version of the MIL-DTL-38999 Series I connectors, using standard 2.5mm telecom optical termini in a LJT shell.

Main features

- 1 to 8 channels.
- Available in multimode, singlemode PC and singlemode APC.
- 0.5 dB typical insertion loss in multimode and singlemode.
- Size 11, 13 or 17 shell

OPTIONS

- Square Flange or Jam nut receptacle
- Aluminum shell with OD. Cadmium or Nickel plating
- Straight or right angle backshell heatshrinkable, for pigtails or with clamp

Insert arrangements

Optical termini

MIL-DTL-SERIES I, LJT EXTENDED RANGE - RNJOP - RACK&PANEL FIBER OPTIC

Rack & Panel connector with optical terminis.

Description

Optical version or the RNJ connector, using standard 2.5mm telecom optical terminations in a RNJ shell, providing optical connexions for Blind-mate applications, with realignment and floatability

Main features

- Axial, longitudinal and angular realignment
 - 1 to 8 channels.
 - Available in multimode, singlemode PC and singlemode APC.
 - 0.5 dB typical insertion loss in multimode and singlemode.
 - Size 11, 13 or 17 shell
- OPTIONS**
- Aluminum shell with OD. Cadmium or Nickel plating
 - Can be provided with straight backshell for pigtails

ACCESSORIES - METAL BACKSHELL QUICK SELECTION GUIDE

Description

Amphenol offers a full range of backshell for any need and application. These rear accessories enhance the performance capabilities of the connectors in severe environment applications. Several materials & finishes are available as well as numerous versions. For more details, please consult the backshells catalog (DOC-000022-ANG).

		Series availability and designation			
Type		MIL-DTL-38999 Series I, HE308 LJT, RNJ	MIL-DTL-38999 Series II / JT	MIL-DTL-38999 Series III, TV / CTV, SC39, RNJLP	Description
EMI SHIELDING	STRAIGHT				
		HE308-35	-	TV 35	- Full 360° shield termination. - Available with different cabling chambers. - Easy maintenance or repairability. - Sealing ensured by straight or right-angled heat-shrink molded piece.
	RIGHT ANGLE				
		LJT SBC	-	TV SBC	- Full 360° shield termination. - Available with different cabling chambers. - Easy maintenance and repairability. - Sealing ensured by straight or right angled heat-shrink molded piece.
	HIGH LEVEL OF EMI/RFI PROTECTIVE				
		LJT NSA HE308-13	-	TV NSA	- Electrical continuity between cable and connector by clamping the braid with a screwing system. - Free inner ring to avoid twisting the braid when screwing. - Sealing ensured by straight or right angle heat-shrink molded piece.
SEALING	BAND LOCK ADAPTOR				
		M85049/85 (straight) M85049/87 (90°)	M85049/85 (straight) M85049/87 (90°)	M85049/88 (straight) M85049/90 (90°)	- MIL standardized band backshell. - Full 360° termination. - Sealing ensured by straight or right angle heat-shrink molded piece. - Right angle and 45° versions available.
	ADAPTER FOR HEAT-SHRINK MOLDED PIECE				
		LJT NSD HE308-14	-	TV NSD	- Ensure the sealing and mechanical retention on the cable.
	ADAPTER FOR SEALING GLAND				
		-	-	TV 35M (straight) TV 105 M (90°)	- Ensure adaptation on metric sealing gland. - Available in different cabling chamber lengths and rear side.
MECHANICAL RETENTION	STRAIN RELIEF CLAMP				
		M85049/49-2 (straight) M85049/47 (90°)	M85049/49-2 (straight) M85049/47 (90°)	M85049/38 (straight) M85049/39 (90°)	- MIL standardized strain relief clamp. - Mechanical retention of the cable. - Easy maintenance or repairability. - Self locking option available.

Torques values for rear accessories - According to the SAE-85049 standard:

Accessory thread torque value (N.m) ±0.565		
Shell size	Heavy duty (All metal connectors)	Metal medium & light duty (Composite connectors only)
08 / 09	8.475	5.650
10 / 11	11.300	5.650
12 / 13	15.820	5.650
14 / 15	16.950	5.650
16 / 17	16.950	5.650
18 / 19	16.950	5.650
20 / 21	19.775	11.300
22 / 23	19.775	11.300
24 / 25	19.775	11.300

Tightening procedure:

The procedure for fitting rear fittings may vary from one equipment manufacturer to another in terms of the torque to be applied.

The use of Loctite is excluded.

For aluminium alloy rear accessories, if the use of Loctite is excluded, the best performance over time of the "connector + rear fitting" system is to apply the torque value once, then unscrew, apply the torque value a second time, then unscrew and finally apply the torque value a third time.

All dimensions are given for information only and are in mm, except as otherwise specified | *in mm: 1mm=0.03937 inch

ACCESSORIES - PROTECTIVE CAP - METAL CAPS

Description

Amphenol offers a large selection of IP68 protective caps for plugs & receptacles to protect your connector against dust, water & moisture EMI function.

Main features

- Compatible with plugs, Jam nut and Square flange receptacle.
- IP68 (permanent sealing).
- Protective against dust, water and moisture.
- EMI function.
- Nylon cord, stainless steel rope or metal chain.
- Rivet and attachment are not plated.

ACCESSORIES - PROTECTIVE CAP - RUBBER CAPS

Description

Silicon protective cap against dust and water available for MIL-DTL-38999 Series I, II and III on receptacles and available for MIL-DTL-38999 III on the plug side.

Main features

- Compatible with all shell types (plugs and receptacles).
- IP67 (1meter, 30 min sealing).
- Protection against dust and water.
- Silicone 200°C.
- Nylon cord.
- Light weight and noiseless.

ACCESSORIES - RECEPTACLE SELF-CLOSING CAPS

Description

High end Protective with metal self-closing function for MIL-DTL-38999 series III, EN3645 & TV/CTV receptacles (not available for series I and II).

Main features

- Fast self-closing function.
- Space saving: no need for dummy receptacle.
- No noise from pending cap.
- IP67 (1meter, 30 min sealing).
- Protection against dust, water and moisture.
- EMI function.
- Compatible with Jam nut and Square flange receptacle.
- Material: Aluminum with Olive drab cadmium, Black zinc nickel, Nickel and Black electrophoresis.
- Available in several sizes, others sizes upon request.

ACCESSORIES - STOPPER FOR PANELS

Description

Stopper for Jam nut receptacle panel holes, available in all sizes for MIL-DTL-38999 Series III, EN3645, TV/CTV to fill the panel hole and keep EMI protection of the box.

Main features

- For Jam nut receptacle panel.
- Aluminum, with Black zinc nickel or Nickel plating
- Fast and easy solution for your panel hole.
- Protective against dust, water and moisture.
- EMI function.

CONTACT ASSEMBLY - CONTACT CRIMPING

Videos available to help you on our website www.amphenol-socapex.com/en/videos

Wire stripping

- 1 Strip wire to required length. (See stripping dimensions table below). When using hot wire stripping, do not wipe melted insulation material on wire strands; with mechanical strippers do not cut or nick strands.
- 2 See table 1 for proper finished outside wire dimensions.
- 3 Twist strands together to form a firm bundle.
- 4 Insert stripped wire into contact applying slight pressure until wire insulation butts against wire well. Check inspection hole to see that wire strands are visible. If there are strayed wire strands, entire wire end should be re-twisted.
When wire is stripped and properly installed into contact, the next step is to crimp the wire inside the contact by using the proper crimping tool.

Stripping dimension

Contact size	Stripping length
23 ^{HD}	4
22D	4
20	6
16	6
12	6

Contact size	Table 1 Wire Dimension (Inches)**	
	Min.	Max.
10	.135	.162
12	.097	.142
16	.065	.109
20	.040	.077
22	.034	.060
22M, 22D	.030	.050

Contact crimping

Select the recommended crimping tool, turret head or positioner selection settings according to contact size, part number and wire gauge size.

- 1 Insert stripped wire into contact crimp pot. Wire must be visible through inspection hole.
- 2 Using correct crimp tool and locator, cycle the tool once to be sure the indentors are open. insert contact and wire into locator. Squeeze tool handles firmly and completely to insure a proper crimp. The tool will not release unless the crimp indentors in the tool head have been fully actuated.
- 3 Release crimped contact and wire from tool.
Be certain the wire is visible through inspection hole in contact.

^{HD} High density 38999.

CONTACT ASSEMBLY - CONTACT INSERTION & REMOVAL

NEW

Videos available to help you on our website www.amphenol-socapex/videos

- Contact Insertion Instructions
- Contact Crimping Instructions
- Quadrax, Twinax and Coax contacts

Contact insertion

Note: All plastic tools are double-ended. The colored side is the insertion tool and the white side is the removal tool.

- 1 First remove hardware from the plug and receptacle and slide the hardware over wires in proper sequence.

- 2 Use proper plastic or metal insertion tool for corresponding contact. (Consult insertion tool table "Crimping tool"). Slide correct tool (with plastic tool use colored end) over wire insulation and slide forward until tool bottoms against rear contact shoulder.

Plastic tool with contact in proper position

Metal tool

- 3 Next align the tool and contact up to the properly identified cavity at rear of connector plug. Use firm, even pressure; do not use excessive pressure. It is recommended to start at the center cavity. Contact must be aligned with grommet hole and not inserted at an angle. Push forward until contact is felt to snap into position within insert.

CAUTION. when inserting or removing contacts. do not spread or rotate tool tips

- 4 Remove tool and pull back lightly on wire, making sure contact stays properly seated and isn't dragged back with the tool. Repeat operation with remainder of contacts to be inserted, beginning with the center cavity and working outward in alternating rows.

- 5 After all contacts are inserted, fill any empty cavities with wire sealing plugs.

- 6 Reassemble plug or receptacle hardware - slide forward and tighten using connector pliers. Connector holding tools are recommended while tightening back accessories. When using strain relief, center wires at bar clamp. Slide clamp grommet into position and tighten clamp bar screws. When tightening screws, pressure should be applied in the same direction that clamp is threaded to rear threads of connector. When not using clamp grommet, build up wire bundle with vinyl tape so clamp bar will maintain pressure on wires.

Contact removal

Note: All plastic tools are double-ended. The colored side is the insertion tool and the white side is the removal tool.

- 1 Remove hardware from plug or receptacle and slide hardware back along wire bundle.

- 2 Use proper plastic or metal removal tool for corresponding contact. Slide correct size tool over wire insulation.

- 3 Insert plastic or metal removal tool into contact cavity until tool tips enter rear grommet and come to a positive stop. Hold tool tip firmly against positive stop on contact shoulder. Grip wire and simultaneously remove tool and contact. (On occasion, it may be necessary to remove tool, rotate 90° and reinsert.)

CONTACT ASSEMBLY - CONTACTS, TOOLING & ACCESSORIES

Amphenol offers a wide range of contacts and dedicated tools & accessories.
