

JETSET FP6, " Jet Simulations, Experiments, Theory" 10 years later, what is next?

mercredi 23 mai 2018

S5 Simulations: Magnetospheric accretion - Salle de conférence du château (14:00 - 15:30)

time	[id] title	presenter
14:00	[8] Jet launching simulations	FENDT, Christian
14:30	[1] Modeling the accretion on Young Stars : recent results and perspectives	DE SA, Lionel
15:00	[12] Radiation magnetohydrodynamic models and spectral signatures of plasma flows accreting onto Classical T Tauri Stars	M. COLOMBO, Salvatore

jeudi 24 mai 2018

S5 Simulations: S5 Simulations - Salle de conférence du château (09:30 - 11:00)

time	[id] title	presenter
09:30	[28] Simulating accretion and outflow regions in YSOs	ALBUQUERQUE, Raquel
10:00	[18] Seeking for magnetic fields through ALMA polarimetric studies of rotating jet/disk systems	Dr BACCIOTTI, Francesca
10:30	[15] Constraining the structure of X-ray emitting jets close to the launching site	Mlle USTAMUJIC, Sabina

S5 Simulations - Salle de conférence du château (11:30 - 13:00)

time	[id] title	presenter
11:30	[20] Precessing Jets in Supernovae Shells	M. MILLAS, Dimitrios
12:00	[31] Internal chocs in stratified relativistic jets	Dr MELIANI, ZAKARIA
12:30	[33] Modeling the spin evolution of classical TTauri stars	ZANNI, Claudio
